(Grade 'B' Listed)

COMPETITIONS
Various Housing Association Competitions:
Bridgeton/ Milnbank/ Parkhead/ Partick/ Reidvale
Glasgow School of Art Campus

REIDVALE PHASE IV (1987-95)

SELECTED PROJECTS

ARCHES THEATRE PROJECT (1995-2001)

Client: Arches Theatre Co Ltd
Contract Value: £3.1 million

This Lottery funded project renovated the existing Arches Theatre located in the brick arches below Central Station. A new entrance was formed onto Argyle Street and a new foyer space created with exhibition and office facilities and a double height bar/restaurant space. Daylight was introduced with large fire resistant screens onto Midland Lane. Within the arch spaces, large scale objects and industrial detailing, with exposed services, have been used in response to the scale of the existing structure. Glass and video based artwork were incorporated. The derelict basement areas have been renovated to provide workshop, rehearsal and technical areas

REIDVALE PHASE IV (1987-95)

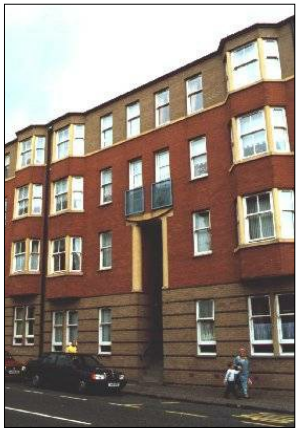
Client: Reidvale Housing Association Ltd
Contract Value: £2.53 million

This project comprises 56 mainstream/sheltered housing units and was completed in November 1995. The buildings are grouped into two courtyards linking with Elder & Cannon's Phase III Housing on Duke Street. The design attempts to resolve the scale difference between the two blocks (from 5 to 2 storeys) by utilising the site slope to maximise the height of the sheltered housing to the south. Within the sheltered block, the three-storey Common Building provides group facilities including centralised heating/hot water plant. The design incorporates various specially commissioned artworks and terrazzo details to highlight various areas.

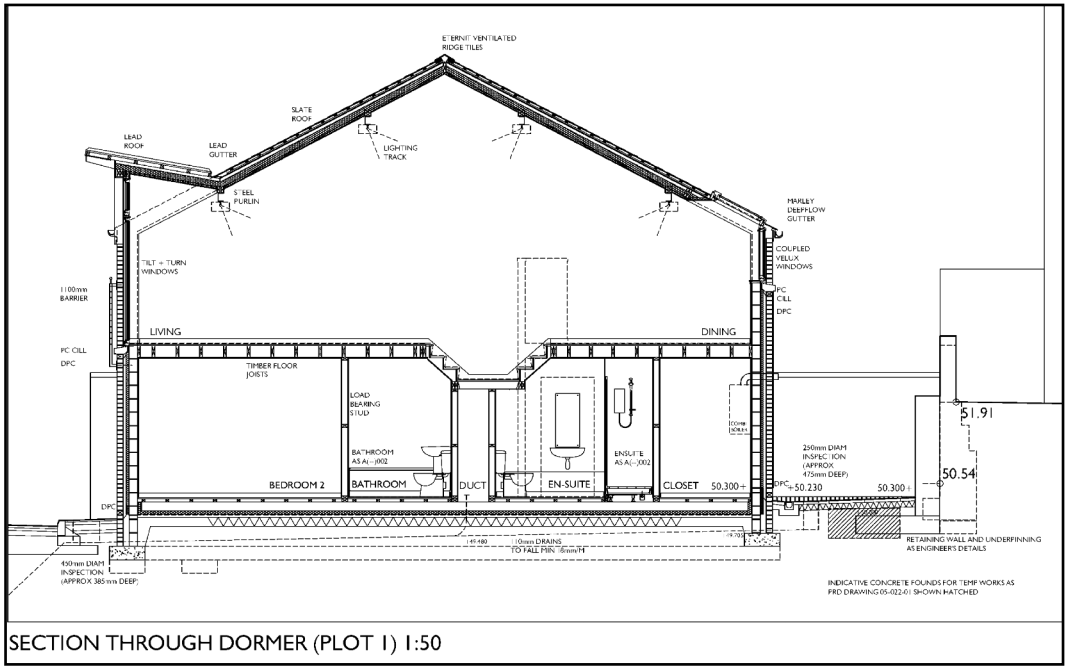
SPRINGFIELD ROAD/BURGHER ST (1987-99)

Client: Parkhead Housing Association Ltd
Contract Values: Phase 1 - £983,000
Phase 2 - £1,343,000
Phase 3 - £916,000

These Projects completed gaps in an existing tenemental block, and providing a total of 71 flats over the 3 Phases. The varying design strategies adopted relate to both the tenemental form and Victorian civic architecture as exemplified by the TSB Building situated where Burgher Street meets Parkhead Cross. Concerns of social interaction have been addressed by the provision of generous public areas. The facades are of facing brick and concrete with roofs of both tile and copper.



SPRINGFIELD ROAD/BURGHER ST (1987-99)



SECTION THROUGH DORMER (PLOT 1) 1:50

MEWS HOUSES: BUCCLEUCH LANE, GLASGOW (2003-2006)
